

Emergency Planning and Partnership Workshop

Safeguard your business and build networks to strengthen your community. This three-hour workshop will provide you with the tools needed to develop a disaster plan to recover and resume services as quickly as possible after an emergency.

The workshop will provide tools to:

- Review & organize agency functions after an interruption to services
- Identify vital functions of your organization and develop a plan for how they can be offered during emergency situations
- Learn to network & partner with organizations prior to an emergency
- Develop a plan to restore all operations of your business

Friday, November 7, 2014
