

MAY 4, 2017

CHILDREN'S MENTAL HEALTH AWARENESS DAY

Lehigh County Government Center

17 S. 7th Street in Allentown

Information Fair 1:00pm

Speakers 2:00pm

Join us for an afternoon of music and inspiring stories of personal and family journeys on the road to mental health recovery. Mental Health impacts 1 out of 5 children in our community. Help us to raise awareness about the importance of children's mental health and to show that positive mental health is essential to a child's healthy development. Courageous conversations can help reduce stigma and build healthy communities where our children can live, love, and learn to their full potential.

For more information, please contact (610) 782-3376 or
