Recovery Center

Change on Hamilton: Offers a safe, accepting place for the people to gather for recovery supports. Whether for recreation, meetings, developing job skills, or connecting with healthcare, community is built in our Recovery Center. While visiting the center you can meet peers who have achieved sobriety and who can show you the way. Services are free of charge.

Journeys: A program for children and families. Offers recovery supports, resources, linkage to healthcare, baby items, and more. Located inside Change on Hamilton.

927 Hamilton St, Allentown, PA 18101
Phone: 484-350-3916

For Narcan and Opioid Resources

Find Narcan and drug testing strips along with educational resources at: RiseAboveOpioids.org or scan the QR code.

Priority treatment services are available to pregnant women, women with children, persons who inject drugs, overdose survivors, and veterans.

Other Services

Lehigh County Drug and Alcohol supports a variety of programs aimed at reducing barriers to accessing our services.

The Hospital Opioid Support Team (HOST), operated by MARS, is a warm hand-off program operating in our six County hospitals. Staff assesses clients via phone in their hospital unit and places them directly to treatment. HOST places over 700 people directly into treatment annually.

For families of substance-using loved ones, the Families Obtaining Recovery Together (FORT) program, offered by MARS, includes individual family counseling, coaching, group family counseling, and peer support regardless of the loved one's presence in treatment.

For some individuals, transportation is a significant barrier to accessing treatment. Danny's Ride is a local non-profit providing rides to treatment appointments. The service is available at our contracted local outpatient providers.

What Do We Do?

Lehigh County Drug and Alcohol is the local authority responsible for development and delivery of comprehensive substance use services to County residents. This includes Prevention, Intervention, Treatment, and Recovery Supports.

- *Prevention* – Services devoted to stopping the development of substance use issues.
- *Intervention* – Attempts to stop substance use disorders in their earliest stages or assist families and communities in recognizing and taking steps to stop further progression of an addiction.
- *Treatment* – Outpatient, Inpatient, and FDA-approved Medication Assisted Treatment is available through a robust network of providers.
- *Recovery Supports* – Certified Recovery Specialists and Case Managers offer support of non-treatment needs.

Frequently Asked Questions

How do I get started in treatment?
Choose one of the Treatment Providers on the list and make an appointment.

Is there assistance to pay for treatment?
If you are uninsured or have private insurance with high out-of-pocket costs, we may be able to help. The treatment provider will assist you in applying for funding and determining financial liability.

Who will know about my treatment?
By State and Federal regulations, your treatment is completely confidential.
