

The County of Lehigh holds employee safety as a number one priority. To maintain a secure workplace, we need the assistance of all employees and officials.

A copy of a Building Emergency Plan is located in each office. Every employee and official should become familiar with the plan to help ensure their safety in the event of an emergency. In addition to that plan, a brochure is available that provides the appropriate steps to take in the event of a fire, bomb threat or medical emergency. All employees and officials are charged with reviewing the recommended actions listed and keeping the information readily accessible.

Safety is our priority and it must be everyone's responsibility. Thank you for preparing now in the event of an emergency.

Donald T. Cunningham

Lehigh County Executive
