

Trade up to online evidence of insurability

Employees need a simple way to complete benefits enrollment, and you need a simple way to help them. With our online Evidence of Insurability (EOI) process employees can complete this essential enrollment step quickly and easily — and you can get on with your day.

Your online EOI link:

securehealth.unum.com/eoiaccess

You can use this EOI link year-round at your annual enrollment event or for new hires.

Your custom access codes:

SIMPLE

Employees answer health questions online during or after enrollment. No more handing out (or chasing down) bulky paper forms.

ACCURATE

Missing information is impossible. No more forms returned as incomplete.

FAST

Most employees get coverage decisions in seconds. Not weeks.

A straightforward process for you and your employees

When employees need to complete EOI, you provide them with a link to our online EOI system and an access code. They log in and complete their EOI. There's nothing more for you to do. Unum will notify you of coverage decisions. You have options for providing the link and access code.

● EMBED IN YOUR BENEFITS ADMINISTRATION SYSTEM

Provide the Unum online EOI link and access codes to your enrollment platform partner. Your partner builds online EOI into its system. All that's left to do is enroll!

● POST TO YOUR INTERNAL WEBSITE

Post the online EOI link to your company's intranet and give employees who need to provide EOI the appropriate access codes. They sign in and complete EOI.

● EMAIL YOUR EMPLOYEES

Once you've determined which employees need to provide EOI, you simply send them the online EOI link and the appropriate access code. To easily reach multiple employees, you can send one email per access code. Just be sure to blind copy the recipients.

● HAVE YOUR ENROLLER ASSIST

Provide the link and access code(s) to your enroller. During enrollment, he or she can show employees who need EOI where to go to complete the process.

For all enrollments & employees

You can use this process year-round for all new enrollments,* re-enrollments, late entrants and new hires.
