Always keep your cell phone charged!

What can I do if stuck home all day?

Well, you don't have to look out the window or watch reruns on TV.

Here are some ideas for those times you find yourself alone.

Improve Your Brain... Playing physical and mental games keeps your mind active and sharp so it doesn't deteriorate

Connect with others and reestablish relationships....

No matter how old we are, human beings remain to be social beings that need connection. Call that old friend you haven't heard from in years, your long lost cousin or neighbor you used to live next to years ago.

Connect with nature as you are able.....

Activities for seniors such as gardening, walking, bird watching, nature photography, will help keep you fit and healthy for a long time and also make you appreciate nature and avoid stress.

Active Learning shouldn't end just because we age...

Learning is not only fun but it's also an amazing way to keep your brain active. Try turning on that laptop or tablet that's just been sitting around your house. Now's a good time to just play around with it and see if you can figure it out. You have nothing to lose and everything to gain! If you get it working, that leads to more exploring with games and browsing the internet to look up something you've always wondered about. OR, you can open one of the coffee table books you've had lying around collecting dust!

Here are some things you can try if you have the materials laying around the house:

Paper crafts

Knitting

Crocheting

Quilt making

Card making and letter writing (People love receiving cards. Now's a good time to just send a friendly hello to someone)

Watercolor painting

Chair Exercises (some videos can be found on YouTube)

Board games or card games on a tablet

Solitaire card games

Jigsaw puzzle

Call younger relatives or friends call to offer conversation, suggest they share their own childhood stories.

Organize your drawers, take your time about it.

Word search/crossword

Paint rocks to make the garden more colorful come Springtime

Adult coloring books

Organize the kitchen drawer

Coupon cutting

Armchair travels using YouTube video tours

Reorganize the toolbox

Reorganize the tackle box

Look through old pictures

Scavenger hunt the newspaper by looking for certain words or ads

Caregivers: Remember, a phone call can brighten a day, the dollar stores have simple craft kits, cooking together with your loved one is quality time (have them peel potatoes, slice veggies or dry the dishes. People need to feel a sense of usefulness and purpose. You can do that for your loved one and in turn you will feel good, too.

Tips to Prevent Dehydration

- Drink small amounts of fluids throughout the day, rather than drinking large amounts all at once.
- Studies have shown that elderly adults who drink 5 glasses of water experience lower rates of fatal coronary heart disease.
- Avoid coffee & alcohol, especially in large quantities, because they have a diuretic effect. This leads to a greater loss of body water, which can cause or exacerbate dehydration.
- Drink water or low-fat milk with every meal, and keep favorite drinks nearby.
- Recognize the early warning signs of dehydration. Warning signs include fatigue, dizziness, thirst, dark urine, headaches, dry mouth/nose, dry skin and cramping.
- Foods high in water, like fresh fruits, vegetables and some dairy products, can help you meet daily hydration needs.
