DOJ PREA Working Group FAQ on the definition of a housing unit: How is a &quot;housing unit&quot; defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house inmates of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows inmates to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</td>

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols.

For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed.

If a particular targeted population is not applicable in the audited facility, enter "0".

34. Enter the total number of interviews conducted with youthful inmates or youthful/juvenile detainees using the “Youthful Inmates” protocol:

- [ ] The inmates/residents/detainees in this targeted category declined to be interviewed.

b. If 0, discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).

Site Review and Documentation Sampling

Site Review

PREA Standard 115.401(h) states, “The auditor shall have access to, and shall observe, all areas of the audited facilities.” In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility’s practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

59. Did you have access to all areas of the facility?  
☒ Yes ☐ No

a. If no, explain what areas of the facility you were unable to access and why.  
Click or tap here to enter text.

Was the site review an active, inquiring process that included the following:

60. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?  
☒ Yes ☐ No

62. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

63. Informal conversations with staff during the site review (encouraged, not required)?

### Documentation Sampling

Where there is a collection of records to review—such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files—auditors must self-select for review a representative sample of each type of record.

65. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

☒ Yes  ☐ No

66. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Note: as this text will be included in the audit report, please do not include any personally identifiable information or other information that could compromise the confidentiality of any persons in the facility.

All documentation reviewed at source and selected by auditor.

### Sexual Abuse and Sexual Harassment Allocations and Investigations in this Facility

#### Sexual Abuse and Sexual Harassment Allocations and Investigations Overview

Remember the number of allocations should be based on a review of all sources of allocations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted.

Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

Organizational chart

(a) The agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency’s approach to preventing, detecting, and responding to such conduct. All policies related to PREA were reviewed during the audit, it was confirmed it outlines the agency’s approach to preventing, detecting, and responding to such conduct. The policy further defines all prohibited acts.

(b) The agency has designated an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities. During staff interviews I confirmed that the PREA Coordinator is available to answer any questions related to PREA. They also confirmed that they make frequent tours through the facility to ensure that the agency is meeting the PREA Standards daily. I found the PREA Coordinator to be very knowledgeable not only on the PREA Standards but their daily application at the facility.

(c) The agency also operates a Community Correctional center which is closed at this time due to Covid. During previous audits they have a PREA Compliance Manager assigned to both the Jail and CCC facility. This facility was included in the current audit, although they were not housing at this time.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the facility’s overall commitment to sexual safety.

Training Lesson Plan

Training Transcripts

(a) The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches. This was confirmed during policy review and during the staff and inmate interviews.

(b) The facility does not conduct cross-gender pat-down searches of inmates. I confirmed during interviews that the facility does not restrict female inmates’ access to programming or other out-of-cell opportunities in order to comply with this provision. I confirmed that females are available on all shifts to conduct pat searches of the female inmates. This was further confirmed during both staff and inmate interviews.
(c) The facility does not conduct cross-gender strip searches and cross-gender visual body cavity searches. This was confirmed during staff and inmate interviews.

(d) The facility has implemented policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. This is accomplished through the use of stalls for toilets and shower curtains for the showers. The toilets that are in the cells are offset from the door. This policy further directs all staff to make opposite gender announcements when entering a housing unit if the opposite gender. These announcements were confirmed during the staff and inmate interviews. I further heard these announcements during the onsite audit.

(e) The facility does not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, they have a conversation with them, and if needed medical will talk with them and review any available medical records. This was confirmed during staff interviews.

(f) The agency has trained all security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed through reviewing the training that is provided and during the staff interviews. All staff interviewed were able to describe the proper cross gender search techniques.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Within 30 days of intake, the inmates are provided a comprehensive education regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. The agency ensures meaningful access to all aspects of the efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient. These steps include providing interpretation services through a telephone language service, and providing materials and signage in Spanish, the predominate second language at the facility. This process was confirmed through staff

MED sample intake- receiving screening

Sample intake- receiving screening

(a) (b) (c) (d) (e) All inmates are assessed during an intake screening with medical, this occurs upon arrival at the facility. The screening is used to determine the inmates risk of being sexually abused by other inmates or sexually abusive toward other inmates. The assessments are conducted using an objective screening instrument and take into consideration the following:
(1) Whether the inmate has a mental, physical, or developmental disability;
(2) The age of the inmate;
(3) The physical build of the inmate;
(4) Whether the inmate has previously been incarcerated;
(5) Whether the inmate’s criminal history is exclusively nonviolent;
(6) Whether the inmate has prior convictions for sex offenses against an adult or child;
(7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming.
(8) Whether the inmate has previously experienced sexual victimization;
(9) The inmate’s own perception of vulnerability; and
(10) Whether the inmate is detained solely for civil immigration purposes.

The initial screening also considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive. The initial screening is being conducted during the initial intake by medical personnel that utilize a computer-based system that assigns specific notifications and tasks when someone is identified as being vulnerable or abusive. These notifications will alert facility treatment staff of any issues. PRIMECARE Medical further screens all inmates on all questions relative to the standard. If the inmate screens high for sexual victimization or abusiveness a task is automatically created for the inmate to meet with mental health within 14 days.

(f) The 30-day screening is being conducted by the case managers who are assigned to the individual housing units. The case manager’s office is located on the blocks which allow constant access and reclassification of the inmates. The treatment staff is doing an exceptional job constantly reassessing the inmates at the facility.

(g) I confirmed with staff that an inmate’s risk level would reassess when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness. This would be conducted by the assigned case manager.

(h) I confirmed with staff that an inmate would not be disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked. This was further confirmed with medical who conducts the screening.

(i) Both screening tools are only accessible to those staff who make housing and programming decisions. This was verified during the staff interviews.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the facility’s overall commitment to sexual safety.

Chapter 1: Administration and Management, Section 1.1: General Administration. Policies

(a)(b) The agency has a policy that dictates inmates at high risk for sexual victimization shall not be placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. It was confirmed if an assessment could not be conducted immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment. I confirmed that inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility will document:
(1) The opportunities that have been limited;
(2) The duration of the limitation; and
(3) The reasons for such limitations.

(c) The inmate would be assigned to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment would not ordinarily exceed a period of 30 days. If an inmate was placed in involuntary segregated housing for more than 30 days a review would be conducted.

(d) If an involuntary segregated housing assignment is made pursuant to paragraph (a) of this section, the facility would clearly document:

(1) The basis for the facility’s concern for the inmate’s safety; and
(2) The reason why no alternative means of separation can be arranged.

During the interviews I verified that no inmates identified as vulnerable are being placed in involuntary protective custody. The facility has enough housing units that give them the opportunity to place inmates in other housing units to protect them without having to utilize a segregated housing unit. I verified this procedure during the inmate interviews, several had identified as vulnerable during the initial screening. They related that they were not placed in segregated housing.

After a careful review of all documentation, and the information received during facility interviews, I found that the agency meets the requirements of this standard and all provisions.

(a) (b) The agency provides multiple internal ways for inmates to privately report sexual abuse and sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. These ways are posted on the housing units and available in the PREA Handouts received at intake and the inmate handbook. These reporting avenues include all internal and third party reporting:

1. Tell any staff member at the facility you trust (medical staff, case managers, housing officers, supervisors, etc.).
2. Submit a request slip to your case manager.
3. File an informal or formal grievance if you are housed at the main jail.
4. Write a letter directly to the Facility Warden.
5. Contact directly:
   - Office of the Chief County Detective
   - Lehigh County DA’s Office
   - 455 West Hamilton Street
   - Allentown, PA 18101

(c) All staff interviewed understood that they shall accept reports made verbally, in writing, anonymously, and from third parties and promptly document all reports.

(d) The agency always asks all staff to privately report sexual abuse and sexual harassment of inmates outside of their chain of command and directly to the Warden.

The above reporting avenues were confirmed during the staff and inmate interviews. The inmates understood the ways to report, and the staff understood their responsibility if an incident was reported to them.

The facility has established third-party reporting methods in policy; these methods allow inmates to report for other inmates and outside individuals to report. The facility website outlines the third-party reporting avenues; this was confirmed through a review of the facility website. The following is posted on the website:

The Lehigh County Department of Corrections has zero tolerance for the sexual abuse or the sexual harassment of persons in our custody. Regardless of age, size, race, ethnicity, sexual orientation or gender identity, staff is required to make every effort to keep the entire incarcerated population safe. Any sexual overtures/advances, attempted sexual abuses, threats, intimidation, or assaults, by one or more detainees towards/against another, should be immediately reported to staff. Incarcerated persons also have the right to be free of any sexual abuse or sexual harassment on the part of staff, volunteers and contracted personnel. Staff is prohibited by law and by policy from engaging in sexual activity with incarcerated persons regardless of consent. Any sexual contact is prohibited, except in the context of
proper searches and medical examinations. Verbal harassment of a sexual nature, including but not limited to, derogatory or demeaning comments about a person’s body is also prohibited. In the rare instance an incarcerated person encounters such an unprofessional staff member; he/she is encouraged to immediately report the behavior.

If faced with sexual abuse or harassment by other detainees or staff, the subject has several options for reporting:

1. Tell any staff member at the facility (medical staff, case managers, housing officers, supervisors, etc.).
2. Submit a request slip to the assigned case manager.
3. File an informal or formal grievance, if housed at the main jail.
4. Write a letter directly to the Facility Warden.
5. Contact directly:

Office of the Chief County Detective  
Lehigh County DA’s Office  
455 West Hamilton Street  
Allentown, PA 18101

Reports can be submitted anonymously, but the more information provided; the easier it will be to investigate the matter. Information concerning the identity of a victim of a sexual assault, and the details of the report itself, will be limited to those who have the need-to-know in order to make decisions concerning the victim’s welfare and for law enforcement/ investigative purposes.

If identified as a victim of sexual assault, the subject will be offered immediate protection from further harm and will be referred for medical examination and clinical assessment.

This information is also posted in the lobby of the facility.

After a careful review of all documentation, and the information received during facility interviews, I found that the facility is substantially compliant with the requirements of this standard, and all provisions.

The PREA Coordinator is designated as the staff member to oversee these efforts. During his interview he informed me that they utilize housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations. By policy the monitoring would last a minimum of 90 days following a report of sexual abuse. The monitoring would include and behavior changes, disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. Policy allows the monitoring to continue beyond 90 days if the initial monitoring indicates a continuing need. The staff confirmed that the monitoring includes periodic status checks of the inmates, all monitoring is documented in the investigative file.

(e) I further confirmed if any other individual who cooperates with an investigation expresses a fear of retaliation, the agency would take appropriate measures to protect that individual against retaliation.

(f) The PREA Coordinator understood that the obligation to monitor would terminate if the allegation is unfounded.

I reviewed the investigations and found that no retaliation or alleged retaliation was indicated.

(a)(b)(c) The agency conducts administrative investigations into allegations of sexual abuse and sexual harassment. During the investigation review I found they are conducting them promptly, thoroughly, and objectively. The investigators have received special training in sexual abuse investigations pursuant to § 115.34. These investigators would gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; interview alleged victims, suspected perpetrators, and witnesses; and review prior complaints and reports of sexual abuse involving the suspected perpetrator.

(d) If the quality of evidence appears to support criminal prosecution, compelled interviews would be conducted by the Lehigh County Detectives after consulting with the District Attorney.

(e) During interviews I confirmed that the credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person’s status as inmate or staff. The agency does not require an inmate who alleges sexual abuse to submit to a polygraph examination as a condition for proceeding with the investigation of such an allegation.

(f) The administrative investigations are conducted utilizing the following guidelines:

   (1) include an effort to determine whether staff actions or failures to act contributed to the abuse; and
   (2) documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.

(g)(h) Criminal investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence...
where feasible. I further confirmed that substantiated allegations of conduct that appears to be criminal are referred for prosecution.

(i) The agency retains all written reports referenced in paragraphs (f) and (g) of this section for as long as the alleged abuser is incarcerated or employed by the agency, plus five years.

(j) I confirmed that the departure of the alleged abuser or victim from the employment or control of the facility or agency does not provide a basis for terminating an investigation.

(l) When the Lehigh County Detectives investigate sexual abuse, the facility cooperates with them and remains informed about the progress of the investigation.

I found the PREA investigator to be well versed in his duties as to the administrative investigation, and more importantly the understanding of when the investigation takes on a possible criminal element they immediately contact the Lehigh County Detectives.

I reviewed the investigations and found that it was conducted immediately and by the proper authorities. The Administrative Investigators have received training on how to conduct the investigations at the facility level. They work closely with the Lehigh County Detectives during any criminal investigations. The Lehigh County Detectives are highly trained sworn law enforcement officers who will conduct in-depth criminal investigations. After reviewing the investigations, I was impressed with the consistency of the overall investigation process.

After a careful review of all documentation, and the information received during the facility interviews, I found that the facility has substantially exceeded the requirements of this standard, and all provisions. This decision was based on the facility’s overall commitment to sexual safety.

This discipline will occur following a substantiated finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse. These sanctions are commensurate with the nature and circumstances of the abuse committed, the inmate’s disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories. (e) I confirmed through policy review and interviews that if an inmate had sexual contact with a staff member who did not consent to the contact the inmate would be charged under the PA Crimes Code and disciplined within the facility.

(f) I confirmed through policy review and interviews that no disciplinary action would take place for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred and that this does not constitute falsely reporting an incident or lying.

(c)(d)(e) The facility screens inmates during the initial intake, this screening is conducted by the medical department. The medical staff stated that the mental health department is automatically tasked to follow up with the inmate within 14 days. I further confirmed this process with the mental health department. They informed me that the initial follows up occurs much faster than 14 days, this is completed as soon as possible.

Pre-Audit Questionnaire

Chapter 1: Administration and Management, Section 1.1: General Administration. Policies

Collected data

(a)(b)(c) The agency collects accurate, uniform data for every reported allegation of sexual abuse using a standardized instrument and set of definitions. The jail aggregates the incident-based sexual abuse data at least annually. The standardized instrument includes, at a minimum, the data necessary to answer all questions from the most recent version of the Survey on Sexual Violence (SSV) conducted by the Department of Justice. The agency maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. All documentation is kept in the Administrative PREA file.

During interviews and review of the collected data it was confirmed that the policy is being followed.

After a careful review of all documentation, and the information received during facility interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions

Any data being collected is reviewed by the administration at the facility. I was informed by both the Warden and PREA Compliance Manager that if a trend was noticed, they would put into place an immediate corrective action plan.

While reviewing the investigation I did not identify any trends or issues that would call for immediate action.
