Lehigh – Northampton LINK Cross-training session 1-11-12

Presenter: Liana Reynolds, Vocational Rehabilitation Supervisor

PA Dept. of Labor and Industry Office of Vocational Rehabilitation 45 N 4th St., Allentown, PA 18102 610-821-6441 or 800-922-9536 Ext. 3105; or <u>lreynolds@pa.gov</u>

The Office of Vocational Rehabilitation (OVR) serves people whose disabilities present a substantial impediment to employment. Services are provided to individuals who can benefit from and who need assistance to prepare for, enter, engage in, or retain employment.

Persons applying for OVR services to get or hold a job are assigned to a vocational rehabilitation counselor who, after meeting with the individual, will review available documents and determine eligibility. If the person is eligible for OVR services, the customer and the counselor will develop an Individualized Plan for Employment (IPE) to include a specific job goal, the services required to achieve the goal, criteria for evaluating progress, and responsibilities. Services provided are those that the individual requires in order to achieve the agreed-upon job goal and may include one or more of the following:

Vocational guidance and counseling – provided to all eligible customers by the OVR counselor without regard to income

Evaluative services to better understand the impairment, the impediment to employment, or the individual's aptitudes and abilities

Restoration services – as prescribed. Medical insurance must be used when available.

Training services to gain the skill necessary to achieve the goal. Education grants must be used when available.

See brochure for additional information. Many services are provided through community partners.

Individuals who are ready for employment services may call our office to request an application, which can be mailed to them. Applications can also be obtained at local CareerLinks. OVR is also initiating an on-line application process through the Comprehensive Workforce Development System (cwds.state.pa.us).
