Director

Tanya Hook
Deputy Director

Jonathan Al-Khal
Special Operations Coordinator

It's important to stay informed when an emergency occurs. Register for CodeRED, Lehigh County's Emergency Notification System.

Lehigh County Emergency Management Agency (EMA) / 9-1-1 Communications Center coordinates CodeRED, a community emergency notification system to alert Lehigh County residents and visitors of an emergency or incident that has occurred, and during situations that may warrant community notification (e.g. shelter in place recommendations).

Here's how CodeRED works:

- Lehigh County EMA/9-1-1 uses the CodeRED system to deliver geo-targeted, time-sensitive notifications via phone, text and email.
- The CodeRED notifications are provided via a telephone notification system that will dial each telephone number registered in Lehigh County's CodeRED system.
- That means that if: 1) you registered in the CodeRED system, 2) your address is located in the affected area, and 3) there is information that is critical to your safety and well-being...then you will be notified via the phone number(s) / email that you registered.
- Landline phone numbers are already registered in the CodeRED system.
- **IMPORTANT**...If you want to receive CodeRED alerts on your cell phone and e-mail then you need to create a CodeRED account.

Create a CodeRED Account:

- Create an account to register your cell phone number(s) and email address(es) with both your home and work addresses. (Suggestion: Register the cell phone and email address of all family members who reside at your home address)
- Go to www.lehighcounty.org
- Click on Departments and select "Emergency Management / 9-1-1"
- Click on the CodeRED icon and you'll be taken to the registration site
- Create a username and password, click "Continue" to create your account
- Once registered, if there's an emergency (e.g. hazardous materials incident, emergency evacuations, etc.) then emergency management officials have the phone numbers and email addresses to notify you.

CodeRED App:

Once you are registered your CodeRED account, then you can also download the CodeRED app. With the CodeRED app, if you are traveling through another community that uses CodeRED and there is an emergency alert(s) then you will receive the emergency alert.
