The mission of the office of the controller, Lehigh County, Pennsylvania is to:

- examine the propriety of internal control,
- assess compliance with statutory requirements,
- evaluate operating procedures,
- audit the accuracy and completeness of records and files pertaining to the receipt and disbursement of County funds by all officers, agents, and employees of the County.

The controller’s office conducts assessments of management performance and program results of any county department or agency to evaluate the efficiency and economy of the agency’s or department’s use of taxpayer funds.
The office of the controller performs an internal auditing function. Internal auditing is an independent appraisal function established within an organization to examine and evaluate the activities of the organization. A general statement of purpose, authority and responsibility for the office of the controller is included in the county home rule charter and administrative code.

The *Government Auditing Standards*, issued by the Comptroller General of the United States, provides auditing guidelines for financial and performance audits. Professional standards are also promulgated by the American Institute of Certified Public Accountants and several other authoritative accounting & auditing organizations.

Compliance to the *Government Auditing Standards* include minimum continuing professional education requirements for the staff and management of the office of the controller. The *Government Auditing Standards* require 80 hours every two years with 24 hours in government-related courses. Certified public accountants are subject to the AICPA required 120 hours every three years (minimum 20 hours per year) and the PICPA requirement of 80 hours every two years. The Institute of Internal Auditors, the Association of Certified Fraud Examiners, and the Association of Government Accountants each have similar requirements to maintain their respective certifications.
County Of Lehigh
Office Of The Controller
Introduction

What is an Audit?

An audit is an independent review of county operations and financial activities. During an audit we evaluate your internal control system and may suggest ways to improve the operational effectiveness and profitability of your area. We look at the degree of risk – the risk of your organization not meeting its objectives – also we evaluate the risk of fraud in your organization. We realize you are busy and having us around can be disruptive. We try to minimize interruptions of your regular work, and keep open communication with you about the audit.

Who are the Auditors?

We are a team comprised of experienced individuals. We have varied business experiences. Many of us have professional certifications such as Certified Government Financial Manager, Certified Public Accountant, Certified Internal Auditor and Certified Fraud Examiner.

Who is the Controller?

The County Controller, Glenn Eckhart, is an elected official, independent of the administrative, legislative and judicial branches of Lehigh County Government. Audit reports are issued to the audited management, the County Executive and the Board of Commissioners and any other parties in charge of governance. All audit reports are a matter of public record and are available on the County of Lehigh website under the Office of the Controller. Reports issued by the Office of the Controller are available on the internet at:

http://www.lehighcounty.org  Select Departments, Controller, Reports by Year

Audit Plans are Based on Risk Assessment.

All county activities are subject to audit. Generally, we select audits based upon a number of risk factors. We look at things such as the time since your last audit, the size of your operation, system changes and turnover of key staff. Various factors are weighed to determine our audit plan.
Classification of Audits:

We classify our audit population into three categories.

Many class one audits are audits we have to do because of a statutory requirement (county or state.) Class one audits also include what we classify as “Continuous Audits” – the verification of monthly reported revenue for row offices and magisterial district court offices, weekly vendor payment reviews, bi-weekly payroll reviews, monthly pension payment reviews and other periodic disbursements made by the county. Other mandated audits include, among others, the magisterial district justice operations, nursing home resident trustee accounts, jail inmate accounts, and the district attorney’s annual drug forfeiture report.

Class two audits are discretionary and are scheduled based on individual priority and staff time availability. The population of class two audits is a dynamic and evolving list to be expanded as we identify changing risk factors and additional audit areas. We refer to these audits as “Periodic Risk-based Audits” – involving financial / attestation / performance audits requiring analytical review, substantive detail testing, tests of internal control, and management effectiveness & efficiency.

Class three audits are “High Priority” (fraud, ethics hotline, or special request) audits. This work is generally not known ahead of time. Class three audits require immediate focus and attention and are given priority over class one and two audit work.
Beginning in late 1998, the office of the controller sent an audit effectiveness questionnaire to the audited management after each audit was completed. Our questionnaire topics included audit planning, fieldwork and reporting. Ratings from 1 (inadequate) to 5 (excellent) were requested for each of 13 questions related to our audit performance. Other written comments were also requested from the audited management.

The average of the responses received rated our performance as 4.6 in 2018. The following are the ratings for the last five years:

4.6 in 2018
4.8 in 2017
4.5 in 2016
4.5 in 2015
4.4 in 2014

The questionnaire describes a 4 rating as “very good” and a 5 as “excellent.”

The questionnaire is helpful to gauge the effectiveness of our audits and the degree of customer satisfaction. The input received helps us in the planning and performance of future audits. We thank all who took the time to respond to the questionnaire.
What is a Desk Audit?
A desk audit is not really an audit at all. It is a spot check clerical review of monthly reports which acts as an early warning system intended to provide ongoing oversight for cash handling offices. If anything unusual is noted during a desk audit, the auditors look into the matter immediately. These monthly clerical reviews serve to highlight any unusual situation in a timely manner that requires our attention. Ultimately, full financial or performance audits are performed based on our risk assessment on a cyclical basis.

2018 Desk Audits:
Row Offices – Monthly desk audits of row office reports for the period January 2018 through December 2018 (continuous monitoring).

- Register of Wills Division *
- Recorder of Deeds Division*
- Clerk of Courts Criminal Division*
- Clerk of Courts Civil Division*
- Orphans Court Office
- Coroner’s Office
- Sheriff’s Office

* These offices are part of the Clerk of Judicial Records Office.

Magisterial District Judges - Monthly desk audits of 14 Magisterial District Court offices’ reports for the period January 2018 through December 2018 (continuous monitoring).

Purpose of Audits – For the row offices: to verify sequential receipt usage; to verify reported revenue matches bank deposits and actual receipt of funds by the office of fiscal affairs; and to verify bank reconciliations are performed on a timely basis.

For the magisterial district court offices: to verify the county share of costs & fines collected and remitted; to verify escrow balance control; and to verify monthly bank account reconciliations.
