All CDBG-CV projects are subject to an environmental review, which must be completed by the County before funds may be committed. Issues requiring remediation would need to be completed prior to the start of any project. Therefore, knowledge of any possible issues should be disclosed at time of application.

The Lehigh County Department of Community & Economic Development will announce CDBG-CV awards on the LC DCED webpage. The first awards in this round will be announced on April 15, 2022. Subsequent awards will be announced from that point forward every month (e.g. second award announcement will occur on May 16, 2022, as May 15, 2022 falls on the weekend). Lehigh County will accept comments on each set of awards for 5 days following the applicable posting. Comments shall be emailed to [lauriemoyer@lehighcounty.org](mailto:lauriemoyer@lehighcounty.org).

It is important to make applicants aware that the *submission* of a CDBG-CV application triggers federal regulations for the project. The applicant should assume, for planning purposes, that from the time of submission of the CDBG-CV application, federal regulations will apply to the project (e.g. - procurement, environmental clearances, federal prevailing wages, providing documentation, etc.) Furthermore, applicants are not able to commit any funding including funding other than CDBG-CV, to the *overall* project until the applicant receives a Notice to Advance from Lehigh County. Committing funding to a project prior to receiving the Notice to Advance can jeopardize a CDBG-CV award. Should the application ultimately not be funded with CDBG-CV dollars, compliance with federal regulations will no longer apply to the project.

In the meantime, should you have questions or need technical assistance pertaining to the CDBG-CV program, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Laurie A. Moyer".
