INDEPENDENT AUDITOR'S REPORT

To the Members of the Borough Council
Borough of Slatington
Slatington, PA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Slatington, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, because of the material effects of the omissions described within the emphasis of matter section, the basic financial statements referred to in the first paragraph do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Borough of Slatington, as of December 31, 2018, and the changes in its financial position or where applicable its cash flows for the year then ended.

Management has not presented the management's discussion and analysis that the Governmental Accounting Standards Board requires to supplement, although not to be a part of, the basic financial statements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison schedule and schedules of police pension plan on pages 42-51 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Borough of Slatington. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole although, as previously stated, the basic financial statements themselves do not conform with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, while the Borough has included capital assets and related accumulated depreciation and depreciation expense, management has not recorded certain general infrastructure assets in governmental activities and, accordingly, has not recorded depreciation expense on those assets. Accounting principles generally accepted in the United States of America, require that those general infrastructure assets be capitalized and depreciated, which would increase the assets, net position and expenses of the governmental activities. The amount by which this departure would affect assets and expenses of the governmental activities is not reasonably determinable.

Furthermore, utility plant in service and contributions in aid to construction costs prior to 1983 have not been capitalized in the Water Fund. The amounts, by which the financial statements would change if these items were included, while material, cannot be determined.

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS **\$ 229,797**

**Amounts Reported for Governmental Activities in the
Statement of Net Position are Different Because:**

Capital assets used in governmental activities are not current financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$4,4,11,762 and the accumulated depreciation is \$2,449,602. 1,962,160

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds. 58,745

Deferred outflows (inflows) of resources related to pensions are applicable to future periods and therefore are not reported in governmental funds. 150,215

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Capital Lease Obligation	\$ (61,232)

RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2018**

Net Change in Fund Balances - Governmental Funds **\$ 239,065**

**Amounts Reported for Governmental Activities in the
Statement of Activities are Different Because:**

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlay	\$	188,301	
Capital Lease		(76,339)	
Less: Depreciation Expense		<u>(146,387)</u>	
			(34,425)

Repayments of capital leases is an expenditure in the governmental funds, but the repayment reduces capital lease liability in the statement of net position. 40,785

Because some property taxes will not be collected for several months after the Borough's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred tax revenues increased by this amount this year. (19,358)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 32,500

Bond premiums are reported in the governmental funds as other financing sources in the year the bonds are issued. However on the statement of activities, the premiums are amortized over the life of the bonds. 2,758

In the statement of activities, certain operating expenses -- compensated absences (vacations) and special termination benefits (early retirement) and pensions -- are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (54,601)

Change in Net Position of Governmental Activities **\$ 206,724**

**BOROUGH OF SLATINGTON
SLATINGTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

1. Entity

The Borough of Slatington was incorporated in 1864 and operates as a Pennsylvania Borough government under "The Borough Code" Act of February 1, 1996. The Borough Council, a seven member group, is the level of government responsible for providing a full range of municipal services including those mandated by statute or ordinance. These include public safety (police, fire and communications), transportation (highways and streets), health and sanitation services, parks and recreation, community development and planning and general administrative services. The council receives funding from local, state and federal government sources and must comply with the concomitant requirements of these funding source entities. The report includes all of the services provided by the Borough to residents and businesses within its boundaries. Municipal services provided include public safety, recreation, public works, and general administration.

In evaluating the Borough as a reporting entity, management has addressed all potential component units for which the Borough may or may not be financially accountable, and as such, be includable within the Borough's financial statements. In accordance with Statement of Governmental Accounting Standards Board (GASB) No. 14 and No. 39, the Borough is financially accountable if it appoints a voting majority of the organization governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefits to or impose specific financial burden on the Borough. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Following is a brief description of the component unit meeting the above criteria and as a result included within the financial reporting entity, a description of the component unit's relationship with the Borough, and a discussion of how component unit information has been incorporated into the financial statements:

Slatington Borough Authority (Authority) - Operates under the laws of the Commonwealth of Pennsylvania with a board appointed by the Borough Council. The Authority was created February 1, 1957 by the Borough of Slatington for the initial purpose of constructing a sanitary sewer system which was financed by the issuance of Sewer Revenue Bonds. The Authority funds are blended into the Sewer Fund.

2. Summary of Significant Accounting Policies

The financial statements of the Borough of Slatington have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Borough's accounting policies are described below.

**BOROUGH OF SLATINGTON
SLATINGTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

2. Summary of Significant Accounting Policies (Continued)

Fund Accounting

The accounts of the Borough are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent.

Basis of Presentation

The Borough's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Statements: Government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Borough as a whole. As a general rule the effect of interfund activity has been eliminated from these statements. Governmental activities which normally are supported by taxes, intergovernmental revenues, and other non-exchange transactions, are reported separately in the government-wide financial statements from business-type activities which rely, to a significant extent on fees and charges for support.

The statement of net position presents the financial condition of the governmental and business-type activity of the Borough at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the Borough and for each function of the Borough's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the Borough.

Fund Financial Statements: Fund financial statements are also provided in the report for all of the governmental funds, proprietary funds, and the fiduciary funds of the Borough. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

2. Summary of Significant Accounting Policies (Continued)

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the Borough's enterprise fund are service charges for water, sewer and garbage. Operating expenses for the Borough's enterprise funds include treatment and collection costs, supplies, administrative costs, and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as non-operating revenues and expenses.

The Borough reports the following major governmental funds:

General Fund is the primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

Fire Fund – is used to account for financial activity of the Borough's fire tax collection to be used for the acquisition of fire safety related equipment.

The Borough reports three major proprietary funds:

Water Fund - is used to account for all costs incurred in the collection, treatment and distribution of water for consumption and is operated in a manner similar to a private business enterprise to be self-supporting.

Sewer Fund - is used to account for the operation and maintenance of the sanitary sewage treatment plant and is operated in a manner similar to a private business enterprise and is intended to be self-supporting.

Garbage Fund - is used to account for the administration of the collection and disposal of municipal waste and recyclables in the Borough and is operated in a manner similar to a private business enterprise to be self-supporting.

The Borough's Fiduciary Fund accounts for the Police Pension Trust Fund, the Non-uniform Pension Trust Fund and the Police Health Reimbursement Plan

Police Pension Trust Fund - is used to account for pension benefits for police officers. The principal revenue sources for this fund are employer and employee contributions.

Non-Uniformed Pension Trust Fund - is used to account for pension benefits for Borough employees. The principal revenue sources for this fund are employer and employee contributions.

Police Health Reimbursement Plan Fund - is used to account for health expense reimbursement for police officers. The principal revenue source for this fund is employer contributions.

Additionally, the Borough reports the following non-major governmental funds:

General Capital Reserve Fund - is used to account for transfers from the general fund and related interest income for capital outlays not accounted for in another fund.

**BOROUGH OF SLATINGTON

2. Summary of Significant Accounting Policies (Continued)

Liquid Fuels Tax Fund - is used to account for the financial activity of the Borough's liquid fuels tax allocation from the Commonwealth of Pennsylvania.

Community Development Block Grant - is used to account for the financial activity of the Borough's Community Development Block Grant program and other urban renewal and improvement grants.

Capital Projects Fund - is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds).

Measurement Focus and Basis of Accounting

The Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net assets (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net position.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenue from federal, state and other grants designated for payment of specific Borough expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are recorded as deferred revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Budgets and Budgetary Accounting

The Borough's budget is prepared primarily on a cash basis and includes appropriations to cover prior and anticipated current encumbrances. Budgets are approved by Borough Council which contains estimated revenues adequate to fully fund appropriations. Annual operating budgets are legally adopted for the General Fund, Fire Fund, Water Fund, Sewer Fund, Garbage Fund, and Liquid Fuels Tax Fund.

2. Summary of Significant Accounting Policies (Continued)

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds, "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value. Insurance holdings, if any, are valued at reported contract values.

Interfund Transactions

Flows of cash or goods from one fund to another without a requirement for repayment are reported as Inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the enterprise fund.

On fund financial statements, short-term inter-fund loans are classified as due from other funds and due to other funds. These amounts are eliminated in the statement of net assets, except for amounts due between governmental and business-type activities or governmental and agency funds, which are presented as internal balances.

Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, and grants. Business-type activities report utility charges as their major receivables.

2. Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the borough as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

All reported capital assets except for, land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building and Land Improvements	20
Treatment Plants and Mains	50
Vehicles	5 to 15
Equipment	5 to 15

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets.

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds.

**BOROUGH OF SLATINGTON
SLATINGTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018**

2. Summary of Significant Accounting Policies (Continued)

Accrued Liabilities and Long-term Obligations(Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance cost, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs whether or not withheld from the actual debt proceeds received are reported as debt service expenditures.

Compensated Absences

The Borough accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

Full-time, permanent employees are granted vacation benefits in varying amounts to specified maximums, depending on years of service with the Borough. Benefits are earned on the first day of work each year. Administration personnel can carry over any unused vacation time, however, all other personnel must use up their vacation time by the end of the year. Sick leave accrues to full-time, permanent employees up to 40 days.

In accordance with GAAP, for the governmental funds, in the Fund Financial Statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and government-wide presentations.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Deferred revenue may also result from revenues being collected in advance of the fiscal year to which they apply or in advance of their legal due date. Property taxes for which there is an enforceable legal claim as of December 31, 2018, but which were levied to finance fiscal year 2017 operations, have been recorded as deferred revenue.

Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Borough or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Borough's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

2. Summary of Significant Accounting Policies (Continued)

Fund Balance Reserves

The fund balance of Governmental Fund Types and the Fiduciary Funds are classified in three separate categories. The categories, and their general meanings, are as follows:

- Committed fund balance – indicates the portion of the fund balance that can be used only for a specific purpose determined by the government's highest level of decision-making authority.
- Assigned fund balance – indicates the portion of the fund balance that has been appropriated for specific purposes.
- Unassigned fund balance – indicates the portion of the fund balance that is available for appropriation and expenditures, in future periods.

Proprietary Fund FASB Usage

The Borough also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental activities and to its proprietary fund, provided they do not conflict with or contradict GASB pronouncements.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Cash and Investments

General

Section 1316 of the Pennsylvania Borough Code provides for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. and Commonwealth of Pennsylvania government obligations, and insured or collateralized time deposits and certificates of deposit. The statutes do not prescribe regulations related to demand deposits; however, they do allow the pooling of governmental funds for investment purposes.

The deposit and investment policy of the Borough adheres to the statutes of the Commonwealth. Deposits of the Borough, except for Pension Trust Fund deposits which are administered by trustees, are either maintained in demand deposits or are held in bank money market accounts. There were no deposit or investment transactions during the year that were in violation of either the Commonwealth's statutes or the policy of the Borough.

3. Cash and Investments (Continued)

Cash (Cash on Hand and Bank Balances)

At December 31, 2018, the carrying amount of the Borough's bank deposits (excluding those held in the Pension Trust Funds, but including Agency Funds) totaled \$3,088,531 and the corresponding bank balances were \$3,139,874 of which \$250,000 was insured by the Federal Deposit Insurance Corporation ("FDIC"); the uninsured bank balances of \$2,889,874 were collateralized, as described below.

Under Act No. 72 of the 1972 Session of the Pennsylvania General Assembly (the "Act of 72"), financial institutions were granted the authority to secure the deposits of public bodies by pledging a pool of assets, as defined in the Act of 72, to cover all public funds deposited in excess of FDIC limits. The uninsured bank balances of the Borough in the amount of \$2,889,874 were collateralized by this pool of assets maintained by the Borough's depository institutions.

In addition, the Borough included in cash, amounts held on hand in petty cash. At December 31, 2018, the petty cash balance was \$300.

Investments

Under Section 1316 of the Pennsylvania Borough Code, the Borough is authorized to invest in United States Treasury Bills, short-term obligations of the U.S. Government or its agencies or instrumentalities, obligations of the U.S. Government or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania or of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision, shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933, provided that the only investments of that company are in the authorized investments for Borough funds listed above and certificates of deposit purchased from institutions insured by the Federal Deposit Insurance Corporation or similar agencies to the extent that such accounts are so insured. Investments of pension trust funds are placed pursuant to guidelines established by the respective pension boards.

3. Cash and Investments (Continued)

As of December 31, 2018, the Borough had the following investments:

<u>Investments</u>	<u>Maturities</u>	<u>Fair Value</u>
<u>Pension Trust Funds</u>		
Corporate Bonds	July 2020 - Aug. 2045	\$ 163,321
Municipal Bonds	March 2022 - Aug. 2029	74,892

<u>Business-Type Activities</u>		
Certificate of Deposit	Aug. 2019 - Oct. 2019	\$ 299,131
		<u>\$ 299,131</u>

Interest Rate Risk

The Borough has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The Borough has no investment policy that would limit its investment choices to certain credit ratings.

Concentration of Credit Risk

The Borough places limits on the amount the Borough may invest in any one issuer. Of the Borough's investments, (not including Pension Trust Funds) 100% are in certificates of deposit at various financial institutions all under the FDIC limit.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Borough will not be able to recover the value of its investments or collateral security that are in the possession of any outside party. The Borough has no investments subject to custodial credit risk.

Based upon assessed valuations provided by the County (\$173,646,600 in 2018), the Borough bills and collects its own property taxes. The schedule for property taxes levied for 2018 is as follows:

April 1	- levy date
April 1 - May 30	- 2% discount period
June 1 - July 31	- face payment period
August 1 - December 31	- 10% penalty period
January 9	- lien date

The Borough tax rate for all purposes in 2018 was 5.30 mills (\$5.00 per \$1,000 of assessed valuation), of which 0.50 mills is allocated for the Fire Fund and the remaining 4.80 mills is allocated for the General Fund. The limit on millage for the general operations of the Borough is 30 mills, with separate millage limits available for fire protection, library, pension contributions and other uses. The Borough does not currently categorize the mills levied.

The balances at December 31, 2018 are as follows:

	Gross Taxes Receivable	Allowance for Uncollectible Taxes	Net Estimated to be Collectible	Tax Revenue Recognized	Deferred Taxes

7. Agreements with Other Governments

Borough of Walnutport

In 1976, the Borough of Slatington entered into an agreement with the Borough of Walnutport which provided that Slatington will process Walnutport's sewage at Slatington's treatment plant. The agreement states that Walnutport will reimburse Slatington a portion of the operating costs of the treatment plant and also a percentage of Slatington's debt service relating to the treatment plant. For the year ended December 31, 2018, the Borough of Walnutport's share of the treatment plant's costs amounted to \$128,820.

Washington Township

Agreement with Washington Township - In 1999, the Borough of Slatington entered into an agreement with the Township of Washington which provided that Slatington will process Washington Township sewage at Slatington's treatment plant. The agreement states that Washington Township will reimburse Slatington a portion of the operating costs of the treatment plant and shared portions of the collection system. For the year ended December 31, 2018, the Township of Washington's share of the treatment plant's cost and shared portions of the collection system amounted to \$72,202.

In May of 2011 the Borough issued a General Obligation Bond to refund the 2006 General Obligation Bonds. Long-term General Obligation Bonds were satisfied during 2018.

9. Commitments and Contingencies

The Borough receives Federal and State Grants for specific purposes that are subject to review and audit by Federal and State agencies. Such audits could result in a request for reimbursement by the Federal and State agencies for expenditures disallowed under the terms and conditions of the appropriate agency. In the opinion of the Borough's management, such disallowances, if any, will not be significant to the Borough's basic purpose financial statements.

10. Deferred Revenue

In June 2002, the Northern Lehigh Playground Assoc., Inc. prepaid rent to the Borough in the amount of \$50,000 to lease a parcel of land for the construction of a new community center. This deferred rent is being amortized over 50 years and the unamortized balance at December 31, 2018 is \$33,000.

12. Defined Contribution Retirement Plan

The Borough provides pension benefits for all of its eligible full-time non-uniform employees through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees who complete 1,000 hours of service are eligible to participate. The plan requires the Borough to contribute an amount equal to 9% of the employee's salary as defined by the plan each year. The Borough's contributions for each employee and investment earnings allocated to the employee's account are fully vested upon entering the plan.

The Borough's total non-police officer payroll for 2018 was \$556,202. The Borough's contribution using the above salaries amounts to \$46,980 for 2018.

At December 31, 2018, participants in the plans were as follows:

Participants:	
Retirees and Beneficiaries	0
Deferred Vested	0
Active Employees:

13. Defined Benefit Retirement Plan

Plan Description

The Borough of Slatington Police Pension Plan is a single-employer defined benefit pension plan controlled by the provisions of Ordinance 663 adopted pursuant to Act 600. The plan is governed by the Borough of Slatington which may amend plan provisions, and which is responsible for the management of plan assets. The Borough of Slatington has delegated the authority to manage certain plan assets to National Penn Investors Trust Company.

The Borough of Slatington filed actuarial valuation report Form 201C with the Public Employee Retirement Commission. The report dated January 1, 2018, was the most recently certified by the municipality's chief administrative officer. This report indicated the municipality maintains a pension plan to provide pension or retirement benefits for Uniform employees. The Borough's uniformed pension plan covers any full-time or regular members of the police force of the Borough who work for a stated salary or compensation.

Benefits Provided

Borough of Slatington provides normal retirement, early retirement, and disability benefits to plan members and their beneficiaries. Normal retirement benefits are calculated on 50% of members average monthly compensation during the last 36 months of employment with the Borough when the member obtains the age of 50 and completes 25 years of credited service. In addition, a member shall receive a service increment of \$100 per month for each full year of service in excess of 25 years. The monthly benefit attributable to the service increment shall not exceed \$100. Early retirement benefits are determined based on an actuarial equivalent of the accrued retirement benefit, the member must have completed 20 years of service. Disability retirement benefits are equal to 50% of the salary of the member.

At January 1, 2018, the following employees were covered by the benefit terms:

Participants:

Retirees and Beneficiaries	6
Active Employees	6
Terminated Employees	0

Contributions

Act 205 requires that annual contributions to the plan be based upon the plan's Minimum Municipal Obligation (MMO), which is based on the plan's biennial actuarial valuation. In accordance with the plan's governing document, employees are required to contribute 5% of compensation to the plan. The plan may also be eligible to receive an allocation of state aid from the General Municipal Pension System State Aid Program which must be used for pension funding. Any funding requirements established by the MMO in excess of employee contributions and state aid must be paid by the municipality in accordance with Act 205.

13. Defined Benefit Retirement Plan (Continued)

Investment expenses, including investment manager and custodial services, are funded through investment earnings. Administrative expenses, including actuarial and consultant services, are funded through investment earnings and/or contributions.

Employee contributions are based on the employee's annual covered salary. For the year ended December 31, 2018, the employee contribution rate was 5%. The Borough Council may, on an annual basis, reduce or eliminate member contributions to the fund.

Net Pension Liability

The Borough's net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of the date. The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement:

Salary Increases - 5% Compounded annually
Investment Return - 8% per annum, net of investment expenses

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period January 1, 2017 to December 31, 2017. Additionally, mortality rates were based on the Blue Collar RP-2000 Mortality Table Projected to 2017 using Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation of 2.25%) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2018 are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>	<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity		International Equity	7.26%
Large Cap	6.44%	Fixed Income	3.62%
Mid Cap	7.22%	Cash	0.75%
Small Cap	7.22%		

Discount Rate

The discount rate used to measure the total pension liability was 8%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that municipal contributions will be at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumption, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

17. Risk Management and Litigation

Risk Management

The Borough is exposed to various risk of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are provided for through insurance from private insurance companies. All risk management activities are accounted for in the General Fund. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably stated. In determining claims, events that might create claims, but for which none have been reported are considered. During the year ended December 31, 2018 and the two previous fiscal years, no settlements exceeded insurance coverage.

Litigation

In the normal course of operations the Borough is involved in various civil disputes. Management and Borough solicitor estimate that the amount of actual potential claims against the Borough as of December 31, 2018, will not materially affect the financial condition of the Borough.
