Compliance

We have audited the Office of Fiscal Affairs' compliance with the County of Lehigh Administrative Code Section 801.2, paragraph (B) – (E) for the calendar year ended December 31, 2014. Compliance with the requirements referred to above is the responsibility of the Office of Fiscal Affairs' management (a copy of the Fiscal Officer's February 27, 2015 memo is attached). Our responsibility is to express an opinion on the Office of Fiscal Affairs' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on delinquent tax collection activity. An audit includes examining, on a test basis, evidence about the Office of Fiscal Affairs management's compliance with those requirements and performing such other procedures as we consider necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Office of Fiscal Affairs' compliance with those requirements.

In our opinion, Office of Fiscal Affairs complied, in all material respects, with the compliance requirements referred to above that are applicable to the County of Lehigh Administrative Code Section 801.2, paragraph (B) – (E) for the calendar year ended December 31, 2014.

Internal Control Over Compliance

Management of the Office of Fiscal Affairs is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered the Office of Fiscal Affairs' internal control over compliance to determine the auditing procedures for the purposes of expressing an opinion on compliance, but not for the purposes of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Office of Fiscal Affairs' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency or combination of deficiencies in internal control over compliance, such that there is reasonable possibility that a material noncompliance with a compliance requirement will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management; Thomas Muller, County Executive and the Board of Commissioners and it is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
